

# Samsung TFT Color YP-T7J The Battery Replacement

This guide is to replace the battery in the Samsung TFT Color YP-T7J.

Written By: Dylan Peters

## TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #0 Screwdriver](#) (1)

## PARTS:

- [New Replacement Battery](#) (1)

## Step 1 — The Back Cover

- Remove the 2 screws on the back cover using a Phillips head #0 screwdriver.

## Step 2

- Remove the screw on each side of the device using a Phillips head screwdriver.

## Step 3

- Using the plastic opening kit, place the prying end of the kit into the opening created by removing the screws.
- Gently pry open the back cover. Insert the plastic opening tool in between the cover joints.

## Step 4 — The Battery

- Once the back cover has been removed the battery will be visible.
  - Pry the battery from the device.
- ⓘ NOTE: The battery should still be connected to the device

## Step 5

- Unplug the battery connecting cables.

ⓘ NOTE: The battery now should be free from all connections to the device.

To reassemble your device, follow these instructions in reverse order.
